

AUTOMOTIVE COMPONENTS CARRIERS

FLINT, MICHIGAN

In a seven month period a raw land parcel was identified, road and utilities installed and a 350,000 s.f. logistics center designed, permitted and constructed for our client.

This facility served as a prototype for two additional logistics facilities constructed for Android and General Motors in the same industrial park.

Facility Type	Logistics Center
Client	Penske
Size	350,000 sf
