

GEORGE P. JOHNSON COMPANY

Auburn Hills, Michigan

Design was critically important for one of the world's leaders in the exhibit creation field. Design, production and warehousing of many of the Detroit Auto Show displays originate at this facility. The building features high level finishes, including the extensive use of glass and a variety of maple wood in the office areas.

Cunningham-Limp took over for a competitor and immediately achieved \$350,000 in savings by value-engineering the proposed site design. Two building expansions have also been constructed for this client bringing the total size of the facility to 364,000 s.f.

Facility Type	Office / Manufacturing
Client	George P. Johnson Company
Size	364,065 s.f.
